Balance Monthly

Beginning MONDAY

FOR a very limited period, beginning Monday P morning, you will have an opportunity to buy the finest electric cleaner made on terms that are really unusual! Think of it! A genuine Hoover on these remarkably easy terms. Sure you will want to take advantage of this offer. The low down-payment prevailing for a limited time applies not only to the famous Model 700 time applies not only to the landous Moder. Hoover, but to the new popular-priced model as well—the latter costing no more than an ordinary section cleaner. Both of these models have the exclusive cleaning principle, "Positive Agitation"—which gives to The Hoover its ability—demonstrate the contract of the contract o

strated in repeated tests-to remove more dir. per minute than any other cleaner.

Featuring the New 4-70 MODEL

TOO AUTOCRATIC

Hon. Peter Veniot, postmaster-general, states that the letter carriers of Canada have the civil service commission to thank because they did not get a raise in pay which he recommended be given to them the commission made a statement in reference to the matter without denying the assertion of the postmaster-speneral, which therefore goes without challenge from the only party in position to dispute it.

The establishment of this autocratic commission some years ago was hailed as commission some years ago was hailed as even of the commission some years ago was hailed as even of the postmaster of the second of the contract of the day to give a raise in pay to a hard worked and under-pad body of civil servants.

PHYSICAL FITNESS ESSENTIAL

PHYSICAL FINNESS ESSENTIAL

Canada has recently come in for some measure of criticism in Great Britain because the Canada not the State Britain because the Canada not the State Britain because the Canada not be condition would probably not stand the strain of Canadian farm life. London papers have been rather inclined to read lectures to Canadians on the folly of being over-particular, about the glast to take immigrants pretty much on the "orchard rum" principle.

It is to be hoped that these critics will ponder the cases of some of the miner-harvesters who returned to Britain after-vinced them that they had not the strength to do harvest work. These are men who should never have been allowed to come to Canada. To have prevented them coming would never have been allowed to come to Canada. To have prevented them coming would never have been allowed to come to Canada. To have prevented them coming would never have turn back any intending immigrant who is not in physical condition to stand the strenguous work of the farmer. To encourage him to come to Canada would only be to invite him to waste time and money.

PEAT FUEL

Alberta readers will be interested in the news that peat fuel is now being manufactured commercially at Alfred, Ontario, as announced by the department of mines. For a good many years there has been agitation in Ontario and Quebec looking only known sources of fuel found in those provinces except the diminishing forests. That this fuel is now being produced, at the rate of 250 tons a day at one point and at marketable prices, probably means that plants will be entablished elsewhere the proportions.

and the industry assume more or less im-portant proportions.

There is nothing in this to arouse en-thusiasm among those who hope to see Alberta coal become the "Led commonly used for heating in central Canada. While it is difficult to imagine peat being a satis-weather, a point to be noted is that it is well adapted for use in the only season when special rates apply to the shipment of Alberta coal to Ontario-spring or early summer months. That peat is now being manufactured commercially is an-rates be made applicable during the season when Ontario really requires coal.

THE PACIFIC GRAIN PORTS

THE PACIFIC GRAIN PORTS
It is confidently predicted that 100,000,000 bushels of grain will move to the world markets through the Canadian Placific ports during the couning fail and than 80,000,000 bushels for liat year the prediction does not seen unduly sanguine. The handling facilities at Vancouver are being enlarged by the crection of two new elevators. Conditions in the Orient are less disturbed than they were a year ago, grain there should be correspondingly better. Alberts will have more grain to export than went westward last year. These are all conditions which point to a heavier movement from the Pacific ports that during last season, when the exposure of the production of the prediction does not be pushed to the path of the profit than during last season, when the exposure of the profit than during last season, when the exposure of the profit than during last season, when the exposure of the profit than the exposure of the profit than during last season, when the exposure of the profit than the profit than during last season, when the exposure of the profit than the profit than during last season, when the exposure of the profit than during last season, when the exposure of the profit than during last season, when the exposure of the profit than during last season, when the exposure of the profit than during last season, when the last the profit than during last season, when the last the profit than during last season, when the last the profit than during last season, when the last the profit last the last than the profit last the last the profit last the last the last the last than the profit last the last than the last than the last three last the last the last three last tha

shake-up in the harbor board there. How-ever that be, the volume that is now mov-ing through that port is proof that the traffic is being efficiently handled, that the authorities are working out a policy of active trade development, and that the farmers of this province are taking ad-vantage of the short haul and low rates to tide-water.

Brotherhood

When men will give the right of way To others with less right than they. Because they sense their greater need When men will do a kindly deed For kindness' sake, then brotherhood will be a word that's understood.

When intellect shall come to hold At large a place in life as gold. And honor rich or honor poor Be held the same the world wide o'er. Then brotherhood will come to be A recognized reality.

ACTION

BASED ON

Knowledge

Whether it is a business deal or a personal purchase it is a pretty good principle to follow-to know all there is to be known about it-its quality-its value-its suitability to your particular purpose - before you proceed. Successful men do not follow others, nor are they ruled by habit. They make it their business to see and know for themselves.

IT COSTS NO MORE

Make a Test of This Policy in the Purchase of Your Winter Overcoat

> If you have been in the habit of wearing just a ready made overcoat it may never have crossed your mind that there are so many very real personal advantages and economies to be derived from having your overcoat Custom Tailored to your

It's possible that you swept aside the tailored overcoat idea from the impression that they cost more. A comparison of Westcraft's Custom Built overcoat values will reveal to you that you can enjoy a fine overcoat at no greater cost.

TAILORED TO YOUR PERSONAL ORDER

Straight Taik to Woman Who Wants to Monopolize Her Husband—When a Husband Would Be Merely a Luxury Putting the Blame Where It Belongs

There are lots of wives like you who want to be all-in-all to their ids. The woman who has this monopolistic complex resents her husb ection even for his mother and sisters. She has committed fits if m decently collete to be singer partner, or any old woman friend, and

Dear Dorothy Dix—Is any man necessary in the life of a business wor who has a good position and can provide well for herself?

The New Fall Coats and Frocks

paris. The careful personal care he has exercised when selecting these coats and frocks for fall has result. din an assortment of untold beauty. Viewing these charming creations is much like attend-ing the opening of a Parisian couturier — so colorful are the materials, so original and striking are the styles. See them while the assortment is complete!

this new covering

That's why we ordered the new balloon patterned wrappers for the Butter-Krust family-to make them as distinguished-looking as they are distinguished in Favor

Now you'll have no difficulty picking out your favorite McGavin loaf from your grocer's shelves. The general design of the wrapper is the same for all loaves, but there are different color schemes for Butter Krust White Bread, Milk Bran Bread, Dr. Tilden's Whole Wheat Bread, Sun Maid Raisin Bread and Whole Wheat Raisin

Butter Krust deserved this new wrapper. It has been the favorite bread in most Edmonton homes for over 15 years and is winning new friends daily.

Butter Krust popularity is due entirely to the particular quality that has always been maintained—quality obtained from pure ingredients and care in baking.

Ask your grocer or our delivery man For Balloon-Wrapped Butter Krust.

John Christie Returns

To My Thousands of Edmonton Friends:

During the past (we've months I have been in England, where I have been successful in regulation in the purchase of surplus stores from the line purchase of surplus stores from the line purchase of brand two incisides vast quantities of brand several clothing of the identical quality which I introduced into Western Canada several years ago. My thousands of friends in the Edmonton District no doubt thave a recollection of these memorable values.

action of these memorable values.

As this purchase is positively the final stocks available through the Disposals Board, I urge every one of my Edmonton friends to BUY EARLY, as the tremendous demand means that it will only be possible to maintain this Edmonton Depot for a comparatively short time.

I extend a hearty invitation to all my old friends to visit this new store.

JOHN CHRISTIE.

In huge transaction with British Government, John Christie Buys Final Stocks of BLANKETS, CLOTHING and SADDLERY from Disposals Board, and again chooses Edmonton as a distributing point through which

BREWING IS AN IMPORTANT INDUSTRY IN ALBERTA

Few citizens give thought to what the Brewing Industry means to Alberta as an Industry, yet it is an important factor in the Industrial life of the Province.

It is not necessary to emphasize the millions of dollars invested in the industry. The point that should not be lost sight of is that there are hundreds of men steadily employed throughout the year in the brewing, storing and transporting of the products of the five great breweries of Alberta.

> There is no industry in Alberta that spends more of its total income right in this Province than does the Brewing Industry.

BEER ALE STOUT

These healthful and appetizing malt beverages, brewed and bottled in Alberta are recognized by connoisseurs as being unsurpassed for excellence.
